

Automatic test bench

- Design and manufacturing of a brake warning-lamp bench for railway transport
- Support to maintenance and trouble shooting for the brake warning lamp calibration
- Display of the braking circuit pressure state

CHARACTERISTICS

- Mobile bench
- Touch screen PC
- Inverter power supply
- Insulation checking by megohmmeter
- Alarm display position and colour checking by camera
- Pneumatic loading interlock by high-accuracy sensors and governors
- Printed reports
- Simultaneous automated checking of several equipment, test of:
 - Tightness
 - Contact interlocking
 - Contact insulation
 - Alarm display position
